A Disk Based Professional Mailing List Processor for the C-14™

The **MAIL NOW** mailing list processor for the Commodore 64 is a disk based full random access data base. Designed to be used with the **WRITE NOW** word processor, **MAIL NOW** allows the user to provide a base of sorted information that will merge into the text of the word processor for easy form letters.

Some of **MAIL NOW**'s features are:

- 100% optimized machine language fast sorting
- User oriented totally menu driven operation
- User defined print format can print single, double or three labels across
- 10 character comment line (optionally printable)
- 2 character category field (optionally printable)
- Supports 600 entries per disk
- Quick (in memory) sorts by Zip, Category, Last name and State.
- Complete searches of any field and allows the use of wild cards within the search parameter
- Includes data back-up utility
- Fully compatible with **WRITE NOW**

OUR GUARANTEE

For as long as this product is owned by its original owner, **CARDCO, Inc.** will repair or replace any defective parts or the entire unit if it should become inoperative due to a defect in manufacture or materials, providing the unit is returned to **CARDCO, Inc.** in undamaged condition with proof of purchase (purchase receipt).

Commodore 64™ is the registered trade mark of Commodore International.
